BANDITS KILL 1,300 PEOPLE

Army of 25,000 Chinese Troops Seek
Ing to Exterminate Murderers.

Peking, February 21.—Thirteen hundred men, women and children were massacred by the bandits led by "White Wolf," when they sacked Liuan-Chow, province of Mgan-Hwei on January 29. On that occasion they murdered Father Rich, a French Jesuit missionary, and captured and held two other foreigners for ransom.

An army of 25,000 Chinese troops is now converging on "White Wolfs" strongly intrenched position in the vicinity of Cheng Yang-Kwan, further to the north in the same province. "White Wolf" has a force of 6,000 bandits, half of whom are armed with modern rifles.

Opinion is expressed here that unless the opportunity is selzed of externing there.

less the opportunity is selzed of ex-terminating "White Wolf" and his fol-lowers they will form another rebel-lion. Government troops, however, show a strong disinclination to get to close quarters with the bandits.

"We think of George Washington," sald, "as a majestic figure who he said, "as a majestic figure who might have lived in any heroic age, and who still lives in shaping the thoughts and actions of to-day."

Speaking of Washington's spotless private life, Secretary Daniels severely criticised the type of politicians who "believe the public should have no right to have into the private morning." to pry into the private morals of can-didates."

The secretary commended Presidents Taft and Wilson for their Mexican policy, and said Washington would take the same stand if alive to-day

COUNTY SYSTEM CONDEMNED

adequate, Obsolete and Vlclous.

New York, February 21.—The present system of county government in the United States is inadequate, obsolete and vicious, in the opinion of a bureau of the State Comptroller's office, which has just completed a three years' study of the subject. The county system permits of too many irregular and illegal practices," says a report by the chief of the bureau. "The board of supervisors has too wide a power; it should either be abolished or curbed. The financial department is almost invariably careless and slipshod. The county jail is generally a veritable hotbed for vice and crime."
